

Our committee will be amending our 2007 reports, beginning with the March 20th report, to reflect receipts on New York State Dental PAC now being reported on line 11aii instead of line 12. Their PAC is no longer federally registered, and our committee was not informed of this until January 29, 2008. After speaking with our FEC analyst, our committee was instructed to amend only the 2007 reports showing receipts from the New York State Dental PAC.
